CROSS REFERENCE GUIDE LEGEND

Each letter and numeral in the model number represents a specific component of the water filter. Use the following example as a guide to identify each feature **55** = gallons NSF-rated capacity, **(3)** = GPM NSF-rated flow rate, **.2** = micron rating (nominal)

example: **WQ-55(3).2 Cartridge**

PRODUCT DEFINITIONS:

WQ = Multi-Point / Beverage Bar Products
L = Limescale Inhibitor
C = Chloramine
S = Sediment Filter
TEA = Tea Application

ESP = Espresso Application
SFTN = Water Softener
Twin = Manifold allowing 2 Cartridges
TRPL = Manifold allowing 3 cartridges
